It is submitted for your personal use; however, it shall not be reproduced, copied, or exhibited in any fashion, without the written permission of Aetna Sign Group, LTD. You are not authorized to show this drawing to anyone outside your organization, nor is it to be reproduced, used, copied, or exhibited in any fashion. Violation of any of the above shall subject the violator(s) to all statutory and common law damages available to Aetna Sign Group, LTD. including, but not limited to, the value of man hours incurred in the production of this design, attorney's fees, and any and all other costs incurred by Aetna Sign Group, LTD. in the enforcement of its copyrights.

National Building Codes now states all signs that utilize neon transformers, sized at 7,500 volts and up, must utilize UL2161 (GFI) transformers. This type of transformer must have a dedicated electrical (GFI) circuit with ground for the transformer to work. You are responsible to have the proper electrical service to the sign location. Please contact your Aetna Sign Group representative if you need additional information.
