<b>Requested Action</b>	DISCUSSION ITEM FOR THE MAJOR THOROUGHFARE PLAN (MTP)
<b>Contact Person</b>	Jeffrey Carroll, Director Engineering & Mobility Department
<b>Background Information</b>	<p>City has used a Major Thoroughfare Plan (MTP) as a plan for future roadway networks since the initial MTP was adopted in 1974. Since that time it has been updated multiple times as changes have been required. The proposed update revises the current MTP that was adopted in 2019.</p> <p>The MTP is a planning tool to provide for future connectivity if development occurs along the identified routes to provide the ultimate function of roadways as arterials or collectors in the City's transportation network.</p>
