<b>SUMMARY</b>	<p>The Planning and Public Works Departments have been collaborating on potential roadway, drainage, and pedestrian mobility projects which could be included in a future bond issue. Attached is a list of the projects which council was given when the Reimbursement Resolution for a potential bond issue was approved in May. Since that time we have worked to refine the list of cost estimates to determine which projects we believe would be the highest priority and “best bang for the buck.” We will discuss them at the City Council Round Table.</p>
