

Memorandum Public Works

DATE: September 8, 2016
TO: Planning and Zoning Commission
FROM: Michael Mann – Director of Public Works
RE: Westward Environmental – Proposed Development Plat – Septic System

It is our understanding that Westward Environmental desires to continue development of its property located at the intersection of SH-1376 and US-87 utilizing on-site sewage disposal facilities (septic system) in lieu of discharging to the public sewer system.

The Public Works Department has no objection to the granting of this request assuming that all applicable State or Local regulatory requirements are met.

If there are any questions or comments regarding this matter, please feel free to contact us.
