SUMMARY	<p>In 2011 the Planning and Zoning Commission and City Council approved the use of a fence contractor on the proposed site. The fence company has operated from this location since then but they are now interested in further developing the property by requesting the use for any contractors to be permitted, not specific to fencing.</p> <p>The proposed use would be a mix of offices and warehouse office space which requires approval by ordinance. Warehouse offices are only permitted in a B-2 district with City Council approval.</p> <p>As the site is in the Entrance Corridor Overlay District, a 25 foot landscape buffer from Old San Antonio Road will be required. Based on prior discussions regarding this type of use at both the P&Z and City Council, staff is recommending that the Commission consider some other qualifying conditions to the use such as limiting the amount of metal on the buildings and providing fencing for screening in some areas. The contractor has indicated that fencing will be provided along the northern property line.</p> <p>The first approximately 300 feet from Old San Antonio Road could be limited to strictly professional office uses leaving the remainder of the property for general contractor uses. Lighting could be limited to 15 feet in height but in any case must meet all requirements of the Lighting Ordinance. Noise and sound</p>

	<p>regulation would be controlled by our Nuisance Ordinance and would be restricted to daylight hours of 7am to 10pm unless further restricted by the Commission and City Council.</p> <p>Staff is supportive of the request for the use to include any qualifying conditions as specified by the Commission.</p>
