DEPARTMENT	Planning and Community Development

SUMMARY	<p>The property under consideration is located at 16 Chaparral Hill. It is south of the new Durango residential development and across Shooting Club Road from Albany (Industrial Zoning). Jim Cook, the property owner, would like the City of Boerne to annex the property. Mr. Cook is the developer for the Saddlehorn and the Reserve at Saddlehorn residential subdivisions on the north side of town off of Esser and Plant Street.</p> <p>The property is identified in the Land Use Plan as business park, but as we've discussed before when we considered the neighboring property to the north (Durango), this side of Shooting Club is not conducive to industrial development due to topography and adjoining uses of large lot residential. The proposed plan for the site is to subdivide the property into +/- 35 townhome lots that will have a lower price point between \$180,000 and \$220,000. Electricity, sewer and gas will be provided by the City of Boerne and water will be provided by Kendall West Utility District as this area is outside of our service plan and would be too costly to provide water. The developer will be required to bring services to the site so there will be no cost to the City.</p> <p>We have attached the location map and the survey. This annexation will also take in that portion of Shooting Club Road and Chaparral Hill Road that is contiguous to this lot.</p>
