Historic Landmark Commission,

It is time for an update at Ella Blue! Please find the enclosed renderings for our exterior color changes. We had a local design team (The Furniture House) research these historic colors and are asking for your approval. We have enclosed the before and after pictures, color application sheet, paint chips and a sheet showing some FRONT DOOR TRIM only seasonal paint options that would allow us to paint the front door trim only according to the seasons. This would give us a little pop of color while keeping the building neutral.

Thank you for your consideration. Please feel free to call me with any questions.
