

NEWPORT CONSTRUCTION SERVICES

To whom it may concern,

St Helena's Episcopal Church sustained hail damage to the Parish Hall and has been awarded funds from insurance company to replace. Newport Construction would like to get approval from the Historical Commission to proceed with installation of a galvalume standing seam roof. Proposed new roof is identical, material and style, to the roof directly next to the parish hall. Submitted are pictures of roof to be replaced and completed look and sample of material. Please do not hesitate to call for any other information needed to complete this process.
