| <b>SUMMARY</b>                          | <p>The property under consideration is located at 47 Old San Antonio Road. This is a vacant piece of land south of the wastewater treatment and recycling center. Staff is unaware of any plan for development of this site.</p> <p>The Land Use Plan identifies this site as Neighborhood Residential, which allows for 5 – 10 units per acre. Staff feels that the siting of the WWTRC has lessened the likelihood for residential development immediately adjacent to it, but commercial or office uses would be a likely fit next to the plant. The wastewater treatment plant was constructed with a commercial (not industrial) appearance along Old San Antonio Road. The property to the north of the WWTRC was recently approved for the use for an Assembly, across the street is zoned B-2, and the property behind 47 Old San Antonio</p> |

|                               |  |
|-------------------------------|--|
|                               | <p>Road is owned by the Cibolo Preserve, so there is a +/- 500 foot buffer between this property and the Cibolo Creek.</p> <p>The B-2R zoning district allows a lot of the same uses as a B-2, but is restricted in height. The B-2R district will allow us the opportunity to apply the Entrance Corridor overlay to this site as well. Staff recommends the B-2R district for this site.</p> <p>The Planning and Zoning Commission voted 5-0 in favor B-2R zoning.</p> |
