District Impacted

- ☐ 1 = Anzollitto
- ☐ 2 = Woolard
- ☐ 3 = Tye
- ☐ 4 = Cisneros
- ☐ 5 = Handren
- ☒ X All

AGENDA DATE

October 9, 2018

DESCRIPTION

CONSIDER RESOLUTION NO. 2018-R88; A RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AND MANAGE AN ENTERPRISE LICENSE AGREEMENT BETWEEN THE CITY OF BOERNE AND ESRI TO RENEW GIS MAPPING SOFTWARE.

**STAFF'S
RECOMMENDED
ACTION (be specific)**

Approve Resolution No. 2018-R88; Authorizing the City Manager to enter into a contract with Esri GIS Enterprise Mapping Software for an amount not to exceed \$25,000.00 per year for a three-year term.

CONTACT PERSON

Mike Raute, IT Director

SUMMARY

City Staff has been using Esri, Inc. Geographic Information System (GIS) to capture, store, manipulate, analyze, manage, and present all types of mapping and geographical data. Several City Departments use the Esri GIS System not only for creating maps, but also for storing data and reference points relating to the stored data and presentation of it in a geographical medium.

When we first started using Esri GIS for mapping only a few employees in each department used the software so buying a license at \$2,500.00 was more cost effective than a license agreement. About 3 years ago when map representation and geographical data became the normal way for Economic Development, Planning, Public Works, Public Safety and Code Enforcement to present data we decided to utilize the Esri GIS Enterprise License Agreement which gives the City unlimited capabilities and unlimited licenses for installation on City computers and technology devices.

In the last 6 years we have utilized Esri GIS for many interactive maps (<http://www.boerne-tx.gov/1038/Interactive-Maps>), we have also implemented a lot of the tools associated with GIS in order to help City Staff with addressing, crime reporting, tracking development projects, mapping City services & infrastructure.

We have completed the second 3-year contract and need to renew the Enterprise License Agreement for another 3 years. It is widely used software. We have approximately 20 to 30 users that use the software on a daily basis. If we were to go back to a per license model instead of the license agreement it would cost approximately \$75,000.00 each year with no maintenance.

COST	\$25,000.00 year 1 of 3
SOURCE OF FUNDS	Budgeted Item for FY 2018 - 2019
