

Incode Permits

Tyler Technologies' Incode Permits™ module streamlines and tracks the permit management process from initial permit submission and document storage to inspection and permit approval. This module interfaces with Tyler's Incode Contact and Property Management™, Incode Licenses™, and Incode Code Enforcement™ modules, while integration with Incode Financial Management™ applications allows for easy payment processing, refund transfers, and seamless updates to the general ledger.

Improve Office Efficiency

This offering from Tyler increases office efficiency by automating processes, reducing foot traffic and paperwork, and putting more power into the hands of citizens and contractors.

- Electronically store plan documents
- Accept permit submissions and online payments
- Schedule inspections through a web portal
- Pull council reports with ease
- View important information at a glance with interactive charts and graphs

My Dashboard

Highlights of Incode Permits

- HTML5 technology allows the module to be accessed from any device
- Integrates fully with Incode® software
- Provides real-time information with automated data sync
- Reduces inspector travel to and from the office
- Decreases inspection completion time
- Streamlines workflow between the office and field
- Actively alerts users to items requiring their attention (i.e., projects with outstanding balances, permits issued, inspector assignments, etc.)

Boost Field Productivity

The screenshot displays the 'Mobile Inspections' app interface. At the top, a dark blue header contains the app name and a user profile icon labeled 'B'. Below the header, the interface is divided into three main sections: 'Failed - 1', 'To Do - 0', and 'Passed - 8'. The 'Failed' section shows a detailed view of a failed inspection for 'Foundation/slab' at '903 Valparaiso Blvd', due on 10/25/2017 at 10:30AM. It includes fields for Permit (170733), Contractor (Tracks Construction, Inc), and Instructions (INSPECTION). There are also sections for comments, file uploads, and initials. The 'Passed' section lists four successful inspections: 'Foundation/slab' at '803 Tee St', 'Mechanical Final' at '147 Red Maple Way', 'Electrical Final' at '401 Hickory Ave', and 'Framing' at '237 Gracie Ln', all due on 10/25/2017 at various times. Each entry in the 'Passed' list has a red 'X' and a green checkmark icon.

Mobile Inspections

The features and functionality available in Incode Permits gives inspectors the power to complete their assignments from the field, keeping everyone updated in real time without having to return to the back office.

- Snap and attach inspection photos
- Dictate and store inspection notes
- Record contractor signatures
- Map and route inspections with Google Maps™ integration

Ask your Tyler representative about Incode Permits to see how you can streamline your organization's permit management process.
