<b>SUMMARY</b>	<p>In 2005, TCEQ required that the City develop a written Water Conservation Plan. Furthermore, that plan is required to be updated every five years. There are specific requirements for items that must be included in the plan. It is our understanding these plans are utilized by the regional water planning authorities. We are included in Region L.</p> <p>The City has remained in compliance with the creation and required updating of our Water Conservation Plans since the inception of the requirements. It is now time for our plan to be updated again.</p> <p>Staff has prepared the update, including all of the miscellaneous items that are required to be included in the plan. The deadline for approval of our current update of the plan is May 1, 2019.</p> <p>Staff recommends the Council approve our written Water Conservation Plan as presented.</p>
