<b>SUMMARY</b>	<p>In July this property was annexed into the city limits. It was one of 9 contiguous properties annexed. Upon annexation, the properties automatically receive a temporary zoning of R-A, Residential-Agricultural (which is the most restrictive zoning we have). The next step is to permanently zone the properties. We are now giving those properties a zoning.</p> <p>The Planning and Zoning Commission, after much discussion recommended that the property remain the R-A, Residential-Agricultural, by a vote of 7-0. The concerns expressed by the Commission were basically centered on a desire to make sure that when development occurs in this area that it be developed with consideration of the proposed LID/Stormwater ordinance revisions.</p> <p>At the October 22<sup>nd</sup> meeting Council discussed a number of issues concerning the properties in this area. Council too was concerned about development in the flood plain and felt that consideration of this should be part of the ultimate zoning decision. Approximately 90 percent of this property is in the flood plain and a majority of Council</p>

	felt that a conservative approach regarding zoning at this time would be appropriate. Council motioned to continue the R-A zoning by a vote of 3-1.
