

B-1 - HIGH-DENSITY RESIDENTIAL AND NEIGHBORHOOD COMMERCIAL DISTRICT

- A. **Purposes.** These districts are composed of mixed-use dwellings and structures occupied by or suitable for such uses as offices, studios and neighborhood-compatible commercial uses. Although usually located between residential areas and business areas, these districts are in some instances free-standing in residential areas or they may include hospital or college groups and related uses. The district regulations are designed to protect and encourage the transitional character of the districts by permitting a limited group of uses of a commercial nature while protecting the abutting and surrounding residential areas by requiring minimum yard areas and setbacks comparable to those called for in the residential districts.
- B. **Applicability.** The B-1 district is applicable to any area where small scale retail and services are desired to support adjacent non-retail land uses. The total area of the district should not exceed more than 20 to 30 acres without transitioning to the adjacent districts and land uses. The B-1 district requires a Grid Transportation Network with Avenue Street Design Types on the primary streets. Standard Street designs may be used on secondary or support streets if necessary.
