SUMMARY	<p>When the renovation of Kinderpark was completed in 2016 staff had anticipated that the shade from existing and newly planted trees would be adequate to keep playground equipment cool during the summer months. Temperatures have made the slide area unusable at times and led staff to install warning signs informing users of the potentially hot surface. Staff looked at several different options for shading the slide area and determined that a 29' X 40' four post "sail" shade structure would be the most efficient and cost-effective way to solve the problem.</p> <p>Staff solicited quotes from vendors and received 2 qualified quotes back. ShadePro, LLC in the amount of \$19,779.00 including installation, and PlayWorks, Inc. in the amount of \$19,273.51 plus \$10,638.71 for installation. Both shade structures have a 20-year warranty on the steel structure and 10-year warranty on the shade cover.</p> <p>This is an approved and budgeted expenditure in the 2019-2020 Parks Budget.</p>
COST	\$19,779.00
