SUMMARY

The property located at 32828 Interstate 10 West is currently zoned as I, Industrial District. The owner is requesting B-2, Highway Commercial District. This property is located next door to the property that was rezoned to B-2 in October.

Per the Planning and Zoning Commission's and City Council's direction, it has been determined that the Land Use Plan, which identifies this area along IH-10 as Industrial (Business/Office Park), is incorrect and needs modification. Modifications to the Land Use Plan will take place after the UDC is complete. Staff plans to reassess the Land Use Plan based on actions by the P&Z and Council and the establishment of the new zoning districts. It has been stated that the properties fronting IH-10 should be B-2, Highway Commercial Districts. Based on those discussions, this property should follow suit and also be zoned B-2.

While changing the zoning to B-2 would allow retail, restaurant, office type uses; it does not automatically require the B-2 type design standards. Only if they choose to add onto or remodel the building by more than 50%, would they be required to comply. Of course, the change of uses may now allow a use that would encourage a more aesthetic appearance.

	Staff recommends approval of the request for rezoning. The Planning and Zoning commission voted 7-0 (with one recusal) in favor of the rezoning. Council voted 5-0 in favor of the rezoning.
