

The image shows the exterior of a building. The upper portion of the facade is made of light-colored, rectangular stone or concrete blocks. Below this is a wide, bright red horizontal band. A sign with the text "IVI RUGS INC" in white, serif, all-caps font is mounted on this red band. Below the red band is a dark, recessed entrance area. The entrance features a set of double doors with red frames and glass panels. To the left and right of the doors are large glass windows. The lower part of the entrance area is covered by a material that looks like aluminum composite material, matching the color of the awning above. The foreground shows a sidewalk and a street.
