Background Information	<p>The PUD Overlay District is the final step in the PUD process. Council has already approved the PUD Plan and the underlying zoning. The request for the Overlay District was presented to P&Z at the July meeting. The Commission tabled the item for consideration again at the August P&Z meeting. The Commission wanted better detail regarding the “path” that was approved with the PUD Plan. The developer provided that the proposed path on the south side of the development would be concrete.</p> <p>The developer stated that they planned to use concrete for the path, as is the same material being used for the sidewalk on the north side of the development. After consideration of the path material, the Planning and Zoning Commission approved the PUD Overlay District by a vote of 4-0.</p> <p>BACKGROUND:</p> <p>The property under consideration is located mid-block, between Stahl Street and Plant Avenue, Old Number 9 and Rosewood Avenue. The Planned Unit Development (PUD) plan was approved in May 2021, and the property rezoned from a B-2 (Highway Commercial District) to a R-3 (High-Density Residential District) in June 2021. This is the final step in a lengthy process for approval of a PUD.</p> <p>The approved PUD Plan includes 18 townhomes, new right-of-way, visitor parking spaces, and open space. The smallest lot frontage will be 22-feet for a mid-sized unit, and the smallest lot will be 1,650 sf. Once the PUD</p>

	<p>Overlay is approved, the next step will be a subdivision plat.</p> <p>During the meeting when City Council approved the PUD plan (May 11, 2021), it was stated that the Planning and Zoning Commission recommendation was to add a walking path to the south side of the development. Such path would be accommodated within the proposed right-of-way. City Council approved the PUD plan as presented.</p>
