Mayor Pro Tem Woolard called on Mr. Jeff Thompson, Deputy City Manager. Mr. Thompson explained that in 2015, the City entered into an agreement with Kendall West Utilities (KWU) for the provision of water and sewer service outside the City limits. The agreement also prevented Boerne and KWU from encroaching on each other. In 2016, the agreement was amended where KWU could serve in the City's designated service area and vice versa with approval from the other utility. KWU would serve areas where costs were prohibitive for the City. Mr. Thompson stated that the amended agreement under consideration, includes the obligation necessary for collection of franchise fees. KWU's service in the City limits is similar to Bandera and Pedernales Electric Cooperatives service and should be subject to a 4% City of Boerne Franchise Fee. Discussion ensued regarding how the Master Plan would be involved, if Staff has analyzed areas of future growth, areas where a Certificate of Convenience and Necessity (CCN) exists, and the possibility that the agreement can be re-negotiated if necessary in the future.

Mayor Pro Tem Woolard called on Mr. Mike Mann, Utilities Director. Mr. Mann stated that the National Oceanic and Atmospheric Administration (NOAA) periodically updates their publication assessing rainfall events for the United States. In the last study (Atlas 14) for the Central Texas area, data suggests a significant larger rainfall intensity. Mr. Mann provided the history of the Boerne City Lake, explained retention and detention. He stated that the City's Subdivision Ordinance needs to be modified to include higher intensity values to be used in design of drainage facilities for less frequent storms.
